

## FLAG FESTIVAL IS A PRETTY AFFAIR

Children of Salt Lake Stake Carry Out Elaborate Program in the Assembly Hall.

## PLEA FOR BLUE SABBATH

APOSTLE PUTS BAN ON RESORTS KEEPING OPEN ON SUNDAY.

The quarterly conference of the Salt Lake stake of Zion was held yesterday. Meetings were held in the assembly hall in the morning and evening, and in the tabernacle in the afternoon. The feature of the conference was the flag and flag festival by the children of the Sunday schools of the Salt Lake stake.

In this flag and song festival every Sunday school took part and there were thirty numbers on the program. The program was cleverly arranged to tell the story of the life of the Mormon prophet, Joseph Smith, and to instill into the youthful minds reverence for the American flag. The tabernacle was beautifully decorated, all the work having been done by the little children. The front of the gallery was draped in blue and white bunting, and at each crest of the decorations were clusters of American flags and flags of the various nations. The building the flags of all nations were displayed. The large organ was hidden behind a big American flag, and in front of it was a large portrait of Joseph Smith.

At the meeting in the tabernacle in the afternoon the speakers were Apostles Hyrum M. Smith and John Henry Smith. George R. Emery, counselor to Nephi L. Morris, president of the stake, presided. Apostle John Henry Smith made an address on patriotism, reverence for the flag and the observance of the Sabbath. In his talk Hyrum M. Smith said the Mormons should not seek amusement on Sundays. On this subject he said: "I wish to sound a protest on the excessive running after the pleasures of the world. In doing this men lose sight of the worship of God, and He will cause them to be cut off from His presence. Our people should devote the Sabbath to rest and to God. I thank God that he has set aside one day out of the week for rest, and men should make use of this blessing. Companies should not allow their men to work on Sundays, as this day has been set aside as a day of rest. I speak this word of warning to men who conduct resorts and keep them open on Sunday, as they are quite culpable and bear a great part of the responsibility for this evil."

### Children's Program.

The program at the flower and flag festival was quite elaborate, and the numbers that were given follow:

## CONFUSION IN STOCK MARKET

Some Hesitation on Account of Alleged Dubious Condition of Things.

## CROP REPORT ONLY FAIR

INTEREST RATES ADVANCING—COPPER STATISTICS.

New York, June 13.—A good deal of confusion marked the movement of securities last week, and this gave rise to or was the index of uncertainty in the opinion of the operators in the stock market. Continued control was asserted by powerful speculative forces by the vigorous marking up in the prices of stocks here and there of a class calculated to exercise strong influence on sentiment.

Reasons were sought in the course of events for this mixed appearance of speculation, and some developments were held to be sufficiently dubious in their implications to account for the hesitation in the action of the stock market, although confidence in the progress of improvement of business and industry was impaired.

### The Crop Report.

The government report on June 1 on conditions of grain crops received close attention from financial observers, and it failed to offer the full encouragement hoped for as to the promise of the harvest.

The disposition to realize profits on favorable developments was strikingly illustrated in the action of the Southern Pacific following the announcement of the plan for the retirement of preferred stock. United States Steel showed the waning effect of the project to introduce the stock on the Paris bourse.

The statistics of the Copper Producers' association for May confirmed the belief in the definite check to the accumulation of stocks, the deliveries for the month having exceeded the increased product by upward of 1,300,000 pounds.

### Advance in Money Rates.

Interest rates on money advanced in all markets during the week. Rates both for call and time loans were higher in New York, and borrowing from foreigners was extended. There were some large sales of franc bills in the New York exchange market, believed to be in connection with operations of the syndicate to deal in United States Steel in Paris.

Southwestern money centers reported some stirring of demand for funds in preparation for the movement of the crops. The approach of the half yearly settlements will involve some preparations for the large disbursements then. Some withdrawal of government deposits from the national banks and a government bond flotation are looked forward to, and some important financing remains to be provided for the large corporations.

### Business Location Wanted.

As I am about to leave my present quarters at 221 Main street, I am in the market for a new location. Oscar Groshel, the Cash Register Man.

## GENERAL WARREN IS IN THE SWIM

Well Known Butte Pioneer Joins Easterners in California Gold Mine Deal.

As was stated in these columns yesterday, another big deal has been consummated in the mining section lying between Indiana Ranch and Dobbin, on the "old Layman" place, says a special to the Sacramento Bee from Marysville, Yuba county, California.

The successful promoter in this instance is J. J. Cusick, a mining engineer, and the purchasers are General Charles S. Warren of Butte, Mont., a mining man of wide experience, his son, W. W. Warren, a mine expert of Gold Circle, Nev.; R. E. Brannan, a wealthy speculator and property owner of Cleveland, O., and Professor F. G. Mitchell of the same place, Brannan's expert. These men, at the suggestion and instance of Cusick, traveled from their respective homes in the east for no other reason than to view the mining properties in which they invested Saturday.

As stated yesterday, the mines which they have purchased are the Red Cross and Golden Star, owned formerly by Joseph Krupp and J. A. Quisenberry, the Good Times, owned by Williams Bros., an unnamed claim owned by Chester Merriam, and eighty acres from the Yuba Gold Mines company, of which Cusick is the principal.

W. W. Warren, who is to remain in California to look after his father's mines, says now machinery and pumps will be installed at once in the Red Cross mine and a 300-foot shaft sunk in such a way as to develop the Merriam portion, as well as the Red Cross.

The capitalists assert that they have options on \$250 acres each in the same section, as a result of their visit to California.

They would not give for publication the amount of money paid out for the mines.

### Too Many Knockers.

"The people of Yuba county have been dead on their feet to allow this property to lie idle all these years," is what General Warren said to the Bee correspondent when speaking of his purchase. He says he not only got a mine, but one of the most delightful spots in California on which to live.

In his opinion Yuba county has many surprises in store along the line of development in her mining industry. He thinks a veritable Klondike lies within her boundaries and within easy grasp. He finds, however, that those who have gone into the business ahead of him have turned knockers, seemingly to dissuade others from entering in the benefits. He recalls the instance of a stockholder in a mining scheme near his meeting his party with a shotgun when they came to drive onto a portion of the adjoining claim last Friday. The man did not expect to meet in General Warren on old eastern acquaintance, and explained that he was looking for "a skunk" before he found who he was talking to.

Joseph Krupp who owned one of the mines sold by Cusick to the easterners, says the same man who carried the shot-
